175 E. Carson St., Virginia City, NV

Today the library had the opportunity to read the book, "The Spooky Wheels on the Bus" written by J. Elizabeth Mills to the group of preschoolers next door. Then we painted pumpkins with scary eyes, noses, mouths and hairdos. All had a ghoulish time.

Do not forget this Friday, starting at 6pm, is the Spooky Trolley Ride starting at the Community Resource Center. Or follow behind the trolley in your mode of transportation) and spot the strategic haunts around town! Do come out whoever you are.

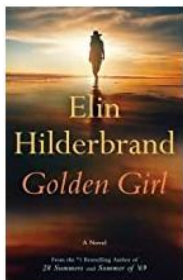

Next, we are planning to work with the kiddos downstairs on a project kit sponsored by NASA to encourage curiosity about space and science. Thank you NASA.
